Authorized Signature

Date

Title

Once we have this signed certificate of resale along with your salon's retail certificate from the state issued and have verified it, we can issue a credit on retail products that were charged tax within 30 days prior to receipt of the above paperwork. As a business owner, you are responsible for updating PSC with a current sales tax certificate, when your certificate on file expires. If your certificate expires we are required by law to charge sales tax on all products purchased until we receive a current copy of the salon's sales tax certificate as well as a current certificate of resale.
